

1. 开头：引出话题与现象 (The Hook)

不要只会用 "Nowadays..."，试试这些更有格调的表达：

"It is generally agreed/widely believed that [现象] plays an increasingly important role in our daily lives."

(人们普遍认为.....在我们的日常生活中扮演着越来越重要的角色。)

"There is no denying the fact that [现象] has triggered a heated debate among the public."

"Along with the rapid development of [社会/科技], a growing number of people are paying attention to [话题]."

(随着.....的快速发展，越来越多的人开始关注.....)

2. 论证：分析原因与后果 (Analysis)

(.....的影响是如此重大，以至于我们无法忽视它。)

- **非谓语动词做状语（表示结果）：**

"[某行为], contributing to / giving rise to / leading to serious consequences."

"The reasons for this phenomenon are manifold. First and foremost, ... Furthermore, ... Last but not least, ..."

(造成这种现象的原因是多方面的。首先.....其次.....最后.....)

3. 转折与对比 (Contrast)

用来替代 "But" 和 "However"：

- **展望未来（倒装/强调）：**

"Only by working together can we create a better future."

（只有团结一致，我们才能创造更美好的未来。）

倒装句

1. 强调“只有这样才能.....”（用于结尾段或提出建议）

结构：Only + 状语 (by/in/when...) + 助动词 + 主语 + 动词原形

这是最万能的，几乎每篇作文的最后一段都能用。

- **通用模板：**

"Only in this way can we solve this problem effectively."

(只有这样，我们才能有效地解决这个问题。)

- **强调合作：**

"Only by working together can we build a harmonious society."

(只有团结合作，我们才能建设和谐社会。)

- **强调重视：**

"Only when we realize the importance of [Health/Environment] can we live a better life."

(只有当我们意识到.....的重要性时，我们才能过上更好的生活。)

2. 强调“绝不/决不能.....”（用于表达坚决的态度或警告）

结构：否定词/短语 + 助动词 + 主语 + 动词

常用的否定词：By no means (决不), Under no circumstances (决不), In no case (决不)。

助动词

一、基本助动词（3个）

be (am/is/are/was/were)、

do (do/does/did)、

have (have/has/had)

功能：构成时态、否定句、疑问句，无实义。

二、情态助动词（核心13个）

can/could、may/might、must、shall/should、will/would、need、dare、ought to

功能：表能力、许可、义务、推测等，后接动词原形，无人称/数变化。

三、半情态助动词（兼具情态与实义动词特征）

have to、be going to、be able to、be willing to、be supposed to、used to、had better、would rather

- **强调不可忽视（万能）：**

"Under no circumstances should we ignore/overlook the potential negative effects of [Mobile Phones/AI]."

(我们在任何情况下都不应忽视.....潜在的负面影响。)

- **强调绝非偶然：**

"By no means is this phenomenon accidental; it is the result of long-term social development."

(这一现象绝非偶然，它是社会长期发展的结果。)

- **强调不能牺牲（环保类/道德类）：**

"On no account/In no case should we sacrifice our environment for short-term economic growth."

(我们决不能为了短期的经济增长而牺牲环境。)

3. 强调“程度之深/影响之大”（用于分析原因或现状）

结构：So + 形容词/副词 + be/助动词 + 主语 + that...

用来替代 "Something is so important that..."，语气强十倍。

- **强调重要性：**

"So important is [Time Management] that no one can afford to neglect it."

"So closely related are [Culture and Language] that they are inseparable."

(.....和.....联系得如此紧密，以至于它们不可分割。)

4. 强调“不仅.....而且.....”（用于递进，增加论据）

结构：Not only + 助动词 + 主语 + ..., but (also)...

用来替代简单的 "Also" 或 "And"。

- **利弊类/功能类：**

"Not only does [Reading] broaden our horizons, but it also enriches our inner world."

(.....不仅拓宽了我们的视野，而且丰富了我们的内心世界。)

- **解决问题类：**

"Not only should the government take action, but individuals should also shoulder their responsibilities."

| (不仅政府应该采取行动，个人也应该承担起责任。)

5. 高级虚拟倒装（假设论证）

结构：去掉 If，把 Were/Had/Should 提到主语前

这种句型非常显摆，适合用来反面论证（如果没有.....会怎样）。

- 强调某物的必要性（If it were not for... -> Were it not for...）：

"Were it not for the convenience brought by the Internet, our modern life would be unimaginable."

(如果要不是互联网带来的便利，我们的现代生活将无法想象。)

- 强调过去的假设（If I had known... -> Had I known...）：

"Had we realized the seriousness earlier, the tragedy could have been avoided."

(如果我们早点意识到严重性，这场悲剧本可以避免。)

下午考试实战策略：

不要贪多，死记硬背下面这两个，考试时找机会硬套进去：

1. 写结尾时用 "Only"：

"Only by taking these measures can we resolve the issue smoothly."

2. 写中间段强调严重性/重要性时用 "So"：

"So significant is this issue that it has aroused wide concern."

考前 30 分钟速记小贴士

1. 同义词替换 (Paraphrasing):

- Good → *beneficial, favorable, constructive*
- Bad → *detrimental, harmful, adverse*
- Important → *vital, crucial, indispensable*
- Think → *claim, assert, advocate*
- Many → *a multitude of, numerous*

2. 句式多样性:

一篇好的作文里，最好出现 1 个倒装句、1 个强调句、1 个从句（定语或状语从句）、1 个非谓语动词结构。不要全篇都是简单句。

3. 连接词是灵魂:

确保句子之间有逻辑连接词（Therefore, Moreover, Nevertheless, Hence），这能让阅卷老师一眼看清你的逻辑脉络。
